

The industry is changing and So Are We ...

“CSUR is the only society to focus exclusively on the full breadth of unconventional resource development, and maintain a multi-disciplinary approach. In addition, its strong emphasis on improving public awareness of unconventional resource development is essential.”

*Jim Reimer
Vice President, Geosciences & Technology
Painted Pony Petroleum Ltd.*

CSUR recognizes the significant challenges facing the sector. In response, we are expanding our value to our members to include more events and a greater transfer of information between all the parties associated with unconventional resource development in Canada. That is our mandate and that is our strength...

WHO WE ARE

The Canadian Society for Unconventional Resources (CSUR) is the leading technical voice for unconventional resources in Canada. Our focus is on providing members with the most current information regarding issues of relevance to our sector. We are uniquely qualified to do so because of our strong ties to all sectors related to unconventional resources; our broad-based membership is testimony to that.

WHY US

TECHNICAL FOCUSED

We are a fact-based organization with a deep understanding of all aspects related to exploration, development and production of unconventional resources.

INCLUSIVE

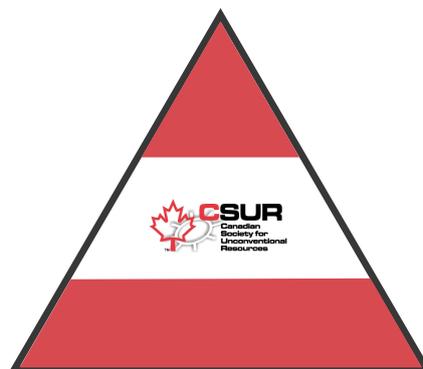

We have strong ties to the entire spectrum of interested stakeholders, and interact and engage with them constantly. These groups are not just **industry** but **academia, governments, environmental groups, consulting firms** and the **public**.

DIVERSE MEMBERSHIP

We are a multi-disciplinary organization with a focus on bringing together the entire spectrum of technical as well as non-technical disciplines. This includes **geologists, engineers, financial, land, environmental** and **executive roles**. This diversity allows us to address a wide range of important issues.

HOW WILL YOU BENEFIT

TECHNICAL INFORMATION

COLLABORATION

- Industry
- Universities
- Governments
- Stakeholders

NETWORKING

- Engineers
- Geologists
- Finance
- Land & Environment
- Business

If you are involved with or desire a better understanding of unconventional resource development in Canada then CSUR provides the conduit for such information. We are at the nucleus for dissemination of fact-based technical information. The diversity and the breadth of CSUR events and publications are testimony to this.
